Program Description	<p>The objective of the department is to prepare students for entry-level positions in the field of finance. Five areas of emphasis are available within this major.</p> <p>The undergraduate finance program deals with the theory, organization and operations of the financial system from both the social and managerial perspectives. Students are expected to develop expertise in making organizational and personal judgments and decisions involving financial data. Additionally, students present their analysis in both written and oral form.</p> <p>Students may select and complete one or more of the following emphases: Corporate Finance, Financial Planning and Insurance, General Finance, Investment Analysis, and Institutional Finance.</p>
Admission Requirement	<p>Admission to a major in the College of Business typically occurs at the beginning of the student's junior year. Once admitted, students may choose to pursue a degree in one or more of the following majors: Accounting, Finance, International Business, Management, or Marketing. Deadlines for application are: October 1 for Spring Semester and March 1 for Fall Semester.</p> <p>Criteria Considered for Admission to the Finance Major:</p> <ol style="list-style-type: none"> 1. Cumulative (Including Transfer) Grade Point Average: minimum 2.7. 2. Credits and courses: 33 completed credits of the 44 general education requirements. 3. Completion of the following courses: IT 101, MATH 130, ACCT 200, ACCT 210, BLAW 200, MGMT 200, MGMT 201, ECON 201, ECON 202 and ECON 207. Complete one of the following courses: PHIL 120W, PHIL 205W, PHIL 222W, PHIL 224W, PHIL 226W, or PHIL 240W.
Advising	Students will initially receive their advising from the professional advisors in the College of Business Advising Center. When a student applies to the College of Business, he/she will be assigned a faculty advisor in the major area of study. Questions regarding the assignment of advisors can be answered in the College of Business Advising Center, 151 Morris Hall, 507-389-2963.
Program Notes	A bachelor of science degree requires 120 credits. If the number of credits taken to meet general education and major course requirements totals less than 120 credits, students are to choose "General Electives" that will count toward graduation, but are not required for general education or the major. The number of General Elective credits will be reduced if a four credit, rather than a three credit, general education course is taken. No minor is required for any major in the College of Business. However, if the student chooses to pursue a minor, he or she may utilize the General Electives identified in this plan toward that minor.
