Program Description:

Vehicle design enthusiasts have been pursuing a Bachelor of Science degree in Automotive Engineering Technology at MSU since 1988. AET students also receive a minor in Manufacturing Engineering Technology. Graduates of the program achieve positions such as Design Engineer, Field Test Engineer, Project Manager, or Technical Director for organizations such as the US Environmental Protection Agency, General Motors, Deere, AGCO, Toro, Polaris, Ford, OTC, S&S Cycle, and many others, both vehicle design and manufacturing related.

MSU provides state-of-the-art lab facilities and equipment for testing chassis handling and dynamics, horsepower, fuel efficiency, and emissions. Students work in cooperation with government agencies and private industry and apply research and new technologies to senior design projects. Past projects include research on chassis design and testing, engine development, and alternative fuel research.

Admission Requirements:

At the beginning of their AET studies, students will declare the AET major. Admission to Major is granted by the department. Students must meet admission requirements prior to taking 300- and 400-level courses. Minimum admission requirements for the College of Science, Engineering and Technology are:

- a minimum of 32 earned semester credit hours
- a minimum cumulative GPA of 2.00 (C)
- completion of ENG 101 and MATH 112 or a higher level math

In addition, completion of the following courses with a "C" or better is required:

- AET 102
- AET 160
- AET 261
- AET 262
- CMST 100 OR 102
- EET 113
- MATH 121
- MET 142
- MET 144
- MET 177
- PHYS 211

Advising:

You are expected to meet with your advisor on a regular basis to ensure courses are taken in an order that will lead to successful completion of the degree.

At a minimum, academic advising and graduation planning will take place in AET 104 and AET 387.

A complete listing of program faculty, policies, and course descriptions is available in the undergraduate bulletin.

TERM 1 - FALL
